DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1- 4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wang (U.S. 6,039,453) in view of Wu (U.S. 6,022,118).

1. Referring to Claim 1, 2 and 3 Wang discloses (Fig. 7) lighted globe having a spherical outer translucent cover [3], a spherical inner globe [73] and bulb [15]. Outer cover has an aperture in its base.

Wang discloses the instant claimed invention except for: rotated support and electric motor.

Wu discloses (Fig.3, col.4, lines 4-19) rotated support [7], electric motor [4] and globe having the image of a map of the world (Fig.4).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the rotated support and electric motor of Wu for the globe of Wang for purpose of rotation the outer globe.

2. Referring to Claim 4 Wu discloses (Fig. 4) image of a map of the world. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the image of a map of the world of Wu for the globe of Wang for purpose of decorating.
